## PRODUCTS

The screenshot shows the 'Products' management page in the ADVOICING system. The header includes the logo 'ADVOICING Advancing Your Business', a navigation menu, and a top bar with icons for calendar, POS, and 'Add Invoice', along with the date '08/01/2024'. The left sidebar lists various modules, with 'Products' selected. The main content area is titled 'Products Manage your products' and features a 'Filters' section with dropdown menus for Product Type, Category, Unit, Tax, Brand, and Business Location. Below the filters are tabs for 'All Products' and 'Stock Report'. A table of products is visible, with columns for Action, Product, Business Location, Unit Purchase Price, Selling Price, Current stock, Product Type, Category, Brand, Tax, SKU, and Cut. The table currently shows no data. Action buttons for 'Export to CSV', 'Export to Excel', 'Print', 'Column visibility', and 'Export to PDF' are present above the table.

## REPORTS

The screenshot displays the 'Profit / Loss Report' page. The header and top navigation are consistent with the previous screenshot. The left sidebar shows 'Reports' selected, with 'Profit / Loss Report' highlighted. The main content area is titled 'Profit / Loss Report' and includes a location filter set to 'All locations' and a 'Filter by date' button. Below this are tabs for different report views: 'Profit by products', 'Profit by categories', 'Profit by brands', 'Profit by locations', and 'Profit by invoice'. The 'Profit by date' tab is active, showing a table with columns for 'Product' and 'Gross Profit'. The table content is empty, with a message 'No data available in table'. A 'Total' row shows 'Rs 0.00'. At the bottom, it indicates 'Showing 0 to 0 of 0 entries' and includes 'Previous' and 'Next' navigation buttons.

**ASSAN** HISSAB

Book keeping for Non Accountants

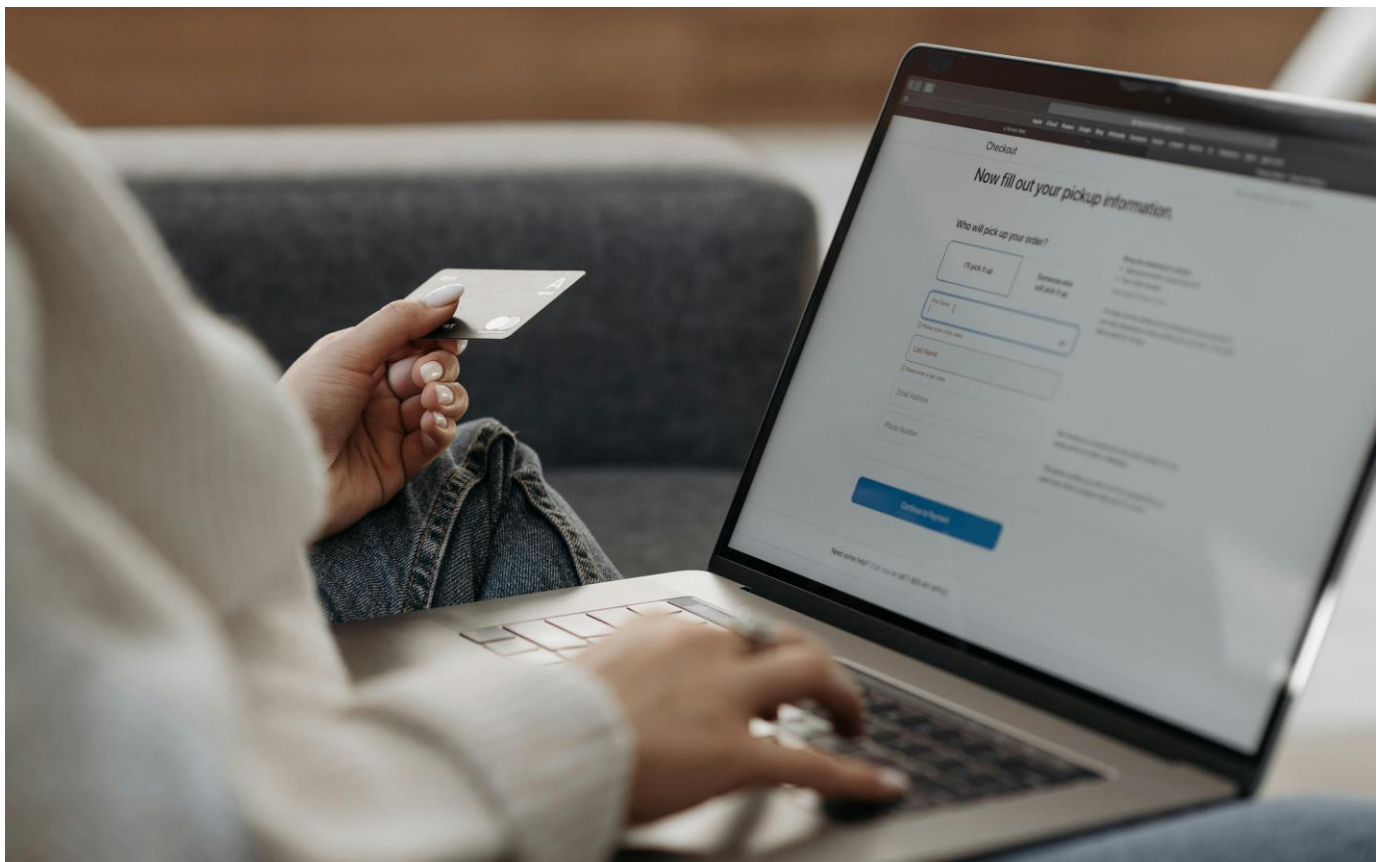

Assan Hissab is a simple accounting app for SME and individuals. It helps you record income's and expenses's. You can also generate invoices.

**PLATFORM**

Web Portal

Mobile App

# F E A T U R E S

## 1 Record Expense

An expense is a type of expenditure that flows through the income statement and is deducted from revenue to arrive a net income.

## 2 Invoices

An invoice is an invaluable tool for accounting. It helps both the seller and the buyer to keep track of their payments.

## 3 Record Income

Money moves through a company (“cash flow”) via three main channels: operations, financing and investing.

# MORE FEATURES

---

## 4 Cash Book

A cash book is useful for accounting because it enables a business to keep track of small cash purchases that could easily slip through the cracks.

## 5 Ledgers:

An accounting ledger is an account or record used to store bookkeeping entries for balance sheet and income-statement transactions.

## 6 Reports:

Accounting reports are prepared for a specific purpose, like checking the ledger wise transactions occurred over a period of time.
